

6th Grade Vision Board Google Slides Project

Objective: Create a digital vision board using Google Slides to represent your goals, dreams, and aspirations for the future.

Project Requirements:

Your vision board should be 6 slides total, with each slide focusing on a different aspect of your life and future. Slides should contain animations and transitions as well.

Slide 1: Title Slide

Title: "My Vision Board"

Your name

A background image or design that represents your personality

Slide 2: Personal Goals

Add at least three personal goals (e.g., learning a new skill, improving a habit, developing a hobby). Use words, phrases, and images to represent your goals.

Slide 3: Academic & Career Goals

Add at least three educational or career goals (e.g., getting good grades, college aspirations, dream job). Include images, icons, or clipart that represent these goals.

Slide 4: Health & Wellness Goals

Add at least three ways you want to stay healthy (e.g., exercise, healthy eating, mental well-being).

Use pictures and short phrases to illustrate your ideas.

Slide 5: Family & Friends

Add at least three ways you want to build or strengthen relationships with family and friends. Include meaningful images or words that represent these connections.

Slide 6: Fun & Adventure

Add at least three fun things you want to do in the future (e.g., travel, try a new sport, explore a new hobby).

Use colorful images and creative fonts to make it exciting.

Instructions for Creating Your Vision Board in Google Slides:

1. Open Google Slides and create a new presentation.
2. Choose a theme or customize the background to match your style.
3. Title each slide based on the categories listed above.
4. Use images, words, and colors to visually represent your goals and dreams.
5. Be creative! Use fun fonts, shapes, and layouts to make your vision board inspiring.
6. Check your work to ensure all six slides are complete and visually appealing.
7. Also, check your work for correct spelling, punctuation, and grammar usage.
